## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest either alone or in combination a system for connecting a set of device chips by attaching them by means of a microjoint structure as recited by claim 1, particularly the set of microjoint pads on the device chips including conductive studs extending outwardly above the surface of the pads, the studs being individual non-fusible posts formed to match in spatial location with each of the respective receptacles on the chip carrier; and interconnect wiring in the carrier connecting the carrier receptacles so as to allow the interconnection of the set of device chips; or a process for interconnecting a set of device chips by attaching a microjoint structure as recited by claim 10, particularly forming the set of microjoint pads including conductive studs in the form of non-fusible posts extending outwards from the pads; matching and joining the pads on the device chips to the receptacles on the carrier; and forming interconnect wiring that connects the carrier receptacles.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
